### 📁 PROJECTS

**Massar** 🎯 , Gamified Travel Guide to Jordan (Full-stack, team project)  
02/2026 – 06/2026

- Designed all page layouts in Figma and set up the project's architecture and GitHub repository
- Onboarded and trained teammates on GitHub workflow via a live walkthrough session
- Built the database and Express/Node server from scratch, including gamification logic (quests, XP, badges, level progression)
- Designed and integrated REST APIs connecting frontend and backend
- Built complex frontend pages and components in React, including a bilingual (Arabic/English) interface
- Integrated and merged all team members' work into a single deployed codebase
- Wrote and ran route tests and k6 load tests to validate performance and stability

**Workstation** 🎯 , Productivity Web App (Full-stack)  
01/2024 – 05/2024

- Built a productivity app combining a Pomodoro timer with task management
- Fullstack implementation covering both client and server logic
